Profile Summary

B.Tech CSE graduate (2026) and full-stack developer with 2.5+ years of freelance experience building and shipping web and Android applications for real clients. Skilled in TypeScript, Next.js, React, Supabase, and React Native/Expo, with production work across B2B manufacturing, restaurant, and hospitality. Comfortable owning a project end-to-end, solo or in a team. Open to full-time roles and internships, including remote.

Education

Shivalik College, Dehradun **2022 – 2026**
B.Tech – Computer Science and Engineering

Technical Skills

Languages: TypeScript, JavaScript, Kotlin, Python, PHP, HTML, CSS
Frontend: React.js, Next.js, Vite, Tailwind CSS, Framer Motion, Three.js
Mobile: React Native, Expo (EAS), Kotlin, Jetpack Compose, WebView apps
Backend & Database: Node.js, REST APIs, Supabase, PostgreSQL
Integrations: Razorpay, WhatsApp API, Google Maps API, Groq AI
Tools: Git, GitHub, Vercel, Vitest, Zod, Recharts, Claude Code (AI-assisted development)

Experience

Freelance Full-Stack Developer **Jan 2024 – Present**
Self-Employed *Dehradun, India*

- Delivered web and Android products end-to-end for multiple clients, from requirements and architecture to deployment, using Next.js, TypeScript, and Supabase.

NR Industries | Website, Management System & Android App | Live Website **2026**

- **Company website:** production B2B site for a transformer and power-distribution manufacturer, built with React, Vite, and Supabase, with a WhatsApp-based enquiry flow.
- **Management system:** internal (not public) order-management web app built with Next.js, TypeScript, and Supabase, handling the company's inventory, orders, and projects on live data.
- **Android app:** full-featured APK (Expo/React Native) synced with the management system, sharing the same login and real-time data for inventory and project tracking.

Blossom Cafe | Next.js, TypeScript, Supabase, Razorpay | theblossomcafe.in **2025**

- Restaurant platform with delivery, takeaway, and dine-in ordering, Razorpay payments, and an admin dashboard for menu control, billing, and sales tracking.

Hotel Management System | Next.js, TypeScript, Supabase, Recharts | Live Demo **2025**

- Staff roles and attendance tracking, room booking, billing, and an analytics dashboard.

RideXplorer | Next.js, TypeScript, Supabase, Tailwind CSS | Live Demo **2024**

- Bike and car booking platform with real-time availability, pricing plans, and booking management.

LYU | Next.js, TypeScript, Supabase, Groq AI | Live Demo **2025 (Team)**

- Career platform with job search, resume builder, AI guidance, skill analysis, and interview preparation.

Personal Android Apps

Lamplight | React Native, Expo, TypeScript, Kotlin | GitHub **2026**

- Offline read-aloud app for books, PDFs, and articles, with natural text-to-speech voices that run entirely on the phone.

Mindtier | Expo, React Native, Next.js, Supabase | GitHub **2026**

- Ranked brain-games app: placement in six quick games, Glicko-2 ratings, daily challenges, and friend duels.

LifeVault | Kotlin, Jetpack Compose, MVVM, ML Kit | GitHub **2026**

- Offline-first Android vault for tracking personal documents, expiry dates, and reminders.

Achievements & Activities

- Shipped 6+ production applications (web and Android) for real clients, with direct client communication on requirements, timelines, and delivery.
- Played football at inter-college level; active chess player.
